

Product insight
Lumesse CourseBuilder

Create.
Share.
Collaborate.

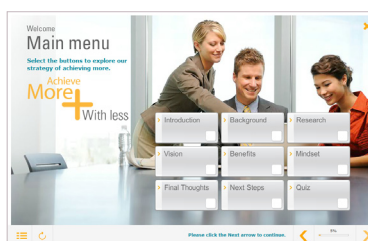

Lumesse CourseBuilder is a cloud-based, e-learning authoring platform that brings your team closer together to develop dynamic, interactive content. Create, share and collaborate in real-time, using one technology and toolset. Subject matter experts, graphic designers, business managers, translators, people within your team and external partners are able to quickly find and reuse content developed anywhere in your organisation.

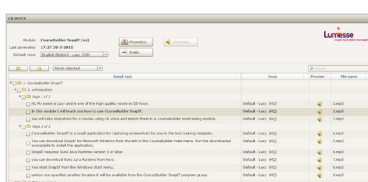

Lumesse CourseBuilder is ideal for all types of e-learning including online courses, quizzes, tests and assessments, software simulations, interactive games, and PowerPoint conversions. The platform is based on an advanced service-oriented architecture and delivered as Software as a Service (SaaS), making it a safe, reliable future-proof investment.

How will Lumesse CourseBuilder help you?

- **Compelling:**
Makes it easier to create interesting content that gets people motivated to learn
- **Fast and simple:**
Helps virtual teams produce content faster with simpler ways to communicate, coordinate, and control complex processes
- **Reduces cost:**
Lowers costs by keeping pictures, animations, videos and learning segments organised so they can be found and reused across the organisation
- **Multinational:**
Helps you gain control over lots of content including multiple language versions and localisations

Create compelling, interactive content that makes people want to engage and learn.

CB Voice is a leading synthetic-voice technology that delivers a full audio-visual learning experience that motivates learners and increases understanding.

“Lumesse CourseBuilder has enabled over a hundred content developers to start working as a team, co-ordinating parts of the process and still giving everyone a lot of flexibility and creative freedom.”

Vodafone Group

Key features

Learning that people will love

Lumesse CourseBuilder provides sophisticated, yet easy-to-use features that accelerate the development of interactive content. Every step is designed to optimise speed of production combined with impressive and compelling results that stimulate learning.

- **Intuitive user interface:**

WYSIWYG editing and step-by-step menus guide you along and make it easy to create advanced, engaging content.

- **A wide range of production templates:**

Templates makes it easy to create engaging and interactive content, from quizzes and exams, true/false questions and multiple-choice questions to free form text fields, hotspot interactions, drag and drop matching exercises, and open ended answers and simulations.

- **A unique and secure media library:**

The media library allows you to find, store and save files and elements efficiently, saving you time by reducing repetitive tasks.

- **Clear and flexible re-use of features:**

Highly scalable, Lumesse CourseBuilder enables a large amount of digital assets and files to be stored, shared or copied within or between modules, reducing production time and increasing the effective re-use of content.

- **Advanced quality assurance and workflow systems:**

Comprehensive and configurable workflow ensures complete control of review processes and permit easy tracking and documentation of feedback.

- **World-class language functionality for translation and localisation of content:**

Every language is supported for use with text, navigation buttons and all other points of user interaction, allowing any language to be selected, and replacing media elements directly into a master copy of the course.

- **CBVoice for high-quality synthetic voice-overs:**

Automatically generate and add high-quality voiceovers for e-learning courses without the need to manually record and implement sound files. With just a few mouse-clicks, you can now add voice-over to any course at any time.

- **Support for accessible content**

Lumesse CourseBuilder provides authors with unparalleled functionality to create accessibility compliant courses quickly and easily, including full support for assistive technologies, with interactive exercises and tests.

“

We selected Lumesse CourseBuilder because it provides a high degree of creative freedom without sacrificing user friendliness.”

GlaxoSmithKline Consumer Healthcare, Norway

About

Lumesse is the only global company making talent management solutions work locally. We help customers around the world to implement successful local talent management initiatives that identify, nurture, educate and develop the right people, in the right place, at the right time. Our multi-cultural background and presence means we understand how to deliver talent solutions that work the way our customers work, as individuals and as teams, because no two people, organisations or cultures are the same. We regard differences as strengths, not as obstacles.

2,000 customers work with us in over 70 countries because they recognise that commitment, innovation and value only come from people. We help customers to unlock and inspire that human potential in their businesses. Our integrated talent management solutions are comprehensive, intuitive, secure and fully internationalised into over 50 languages.

We have Lumesse offices and partners in more than 40 countries, covering EMEA, the Americas and Asia-Pacific. To find your nearest office and talk to someone who speaks your language, visit:
