

## Product insight

### Lumesse Learning Gateway

Manage resources.  
Improve performance.  
Delight learners.

Lumesse Learning Gateway is a powerful, cloud-based learning management system for organisations of all sizes. It provides a flexible and comprehensive system for delivering and managing sophisticated learning programmes.

Lumesse Learning Gateway is delivered as a SaaS (Software-as-a-Service) solution configurable to your exact needs with rapid implementation. Not only is the system fast to deploy and easy to manage, but it is continually enhanced by new product releases. Our solution is scalable to any number of learners and any amount of learning desired.

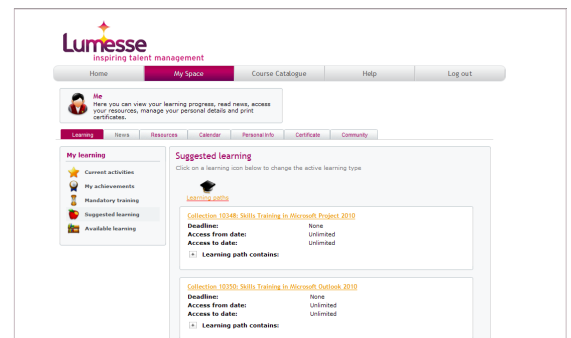

Built on a service-oriented architecture, Lumesse Learning Gateway can be easily integrated with your existing HR infrastructure or other applications using our Web Services. It is also available as part of Lumesse ETWeb, providing you with an end-to-end integrated talent management solution.

## Key features

Lumesse Learning Gateway stands alone in its ability to combine ease-of-use with rich functionality. Every part of the system has been designed to make it easy for users to quickly find what they need, and for administrators to deliver learning that makes an impact.

### Personalise learning and make it exciting:

- Promote learning with compelling, fully-configurable portal interfaces for specific audiences.
- Support job performance by providing an extensive range of on-demand resources.
- Increase social learning and interaction with communities and forums.
- Keep your people up to date and engaged with scheduled or ad-hoc multilingual news publishing.

### Deliver focused activities to specific groups or teams:

- Package learning programmes with resources and news that are relevant to each audience.
- Manage classroom training and sessions easily and increase attendance with email notifications.
- Use training paths and recommended learning to help people prioritise their time.

### Easily administer learning under constant change:

- Manage large numbers of users from registration through to password and profile management.
- Allow administrators to easily distribute and update learning resources in various formats.
- Take advantage of comprehensive classroom management and session management features.

### Gain real-time visibility into learning progress in the organisation:

- Generate a variety of useful reports with the flexible reporting engine.
- Drill down into details with filters and grouping parameters.
- Use automatic features to generate charts and graphs for export to other programmes.
- Manage certification processes and ensure everyone is in compliance.
- Create tests and assessments, providing valuable feedback about course effectiveness.

“

We have six years' experience with Lumesse Learning Gateway and over 30,000 courses completed, with a multitude of programmes since the start. It is a reliable and versatile solution that allows us to grow into the future. ”

## About

Lumesse is the only global company making talent management solutions work locally. We help customers around the world to implement successful local talent management initiatives that identify, nurture, educate and develop the right people, in the right place, at the right time. Our multi-cultural background and presence means we understand how to deliver talent solutions that work the way our customers work, as individuals and as teams, because no two people, organisations or cultures are the same. We regard differences as strengths, not as obstacles.

2,000 customers work with us in over 70 countries because they recognise that commitment, innovation and value only come from people. We help customers to unlock and inspire that human potential in their businesses. Our integrated talent management solutions are comprehensive, intuitive, secure and fully internationalised into over 50 languages.

We have Lumesse offices and partners in more than 40 countries, covering EMEA, the Americas and Asia-Pacific. To find your nearest office and talk to someone who speaks your language, visit:
